## EXPERIENCE

### **Columbia College, Columbia MO** – *Esports Assistant*

Oct 2024 – Present

- Created Promotional content for esports.
- Had to integrate all the content to ensure it would work correctly normally with HTML and JS.
- Created many different unique programs to ensure efficacy of engagement like a scheduler.

### **Columbia College, Columbia MO** – *Data Analyst*

July 2021 – JUNE 2023

- Would collect and analyze data from the entire college.
- Created and presented my findings to state government bodies.
- Learned and used SQL daily as well as a data system that is proprietary to Columbia College.

## EDUCATION

### **Columbia College, Columbia MO** – *Bachelors in Computer Science*

MARCH 2022 – APRIL 2025, Columbia MO

### **MACC, Columbia MO** – *Associates*

MAY 2017 – MARCH 2020, Columbia MO

## PROJECTS

**GameCube shiny hunting bot** – Using a raspberry pi pico I connected a Gamecube controller to it which allowed me to program scripts then using the Raspberry Pi Pico W i then created a web interface that rotated through different scripts after the button was pressed.

<https://github.com/Numbuh/GCBot>

-

**Pokemon Event Wii Game** – *Creating a Wii game that connects to the GBA through the GC to GBA adapter that when plugged into legit hardware you can select through all older Pokemon events that are no longer around.*

<https://github.com/Numbuh/EventsWiiGame>

-

## Accomplishments

Helped create the biggest club at Mizzou, which then hosted events exceeding over 200 players while working with the City of Columbia.

Created 3 positions at Columbia College which lead to our athletics team being the only team with 3 workers in all of the athletics programs (over 15 teams).

Volunteered for over 200 hours at various places around columbia, the most notable once being DD farms which was a local animal sanctuary.
